### OUT OF TOLERANCE ACTION

- Replace defective component(s) and restore unit to proper working order, calibrate per original instructions, and bill accordingly.
- Develop an estimate for cost of replacement instrument(s), and request authorization to proceed. (This may delay delivery beyond promised date.)
- DO NOT REPAIR. Return in "As Found" condition and charge according for labor and time incurred.

**RECALIBRATION INTERVAL** (per the requirements of your quality system)

Please indicate the calibration interval you wish to appear on the calibration report:

**Please note that API Chapter 7, Section 8.2 Specifies a 1 YEAR calibration interval.**

- 1 YEAR**
- NONE** (if you do not wish to have a 'Next Due' date appear.)

If the interval is not indicated by the client, we will insert a 'reasonable and prudent' calibration interval taken from NIST or other authoritative body recommendations.

Note: if we know your recalibration interval, we will contact you approximately one month before the expiration of that interval to remind you recalibration will soon be due.
